There are already local laws against Pro Life activities in force.
6. Burnham: The election to the Westminster parliament in June, of a life long ("but not particularly religious now") Catholic was welcomed by the meeting, but especially because this former actor ^{boy} believes in the Catholic Social Doctrine and proclaims The Common Good, Subsidiarity as "Manchesterism", Solidarity, and, but not fully, The Human Being. One was female Frenchman female and only one was probably native Irish, suspect and victim. The Muslim suspect (Kilmerney killed an American lady.) could NOT be named or described due to Law
8. Housing the Irish The government MAY house the Irish, but surely MUST house the expatriates; asylum seekers etc. an ANOMALY and an injustice which must be remedied, if EU permits it?
